

Rishika Gour

B.Tech in Information Technology | Government Women Engineering College, Ajmer
Email: rgour9320@gmail.com | Phone: +91 7976436292 | City: Beawar, Rajasthan

Objective

Motivated and passionate B.Tech student with strong skills in programming and data science, seeking a Software Engineering Internship at Google to enhance technical skills and contribute to impactful projects.

Education

B.Tech in Information Technology

Government Women Engineering College, Ajmer
Current Year: 3rd | Expected Graduation: 2026

Technical Skills

- Programming: Python, C, C++
- Concepts: Data Structures & Algorithms
- Tools/Libraries: Pandas, NumPy, Matplotlib, Scikit-learn, Git, GitHub

Projects

PhishGuard (Web Security Project) – Built a phishing detection system using Machine Learning to identify fake websites.

Crop Prediction System – Predicted the best crop to grow based on soil and weather data using Random Forest Classifier.

Laptop Price Prediction – Predicted laptop prices based on specifications using Linear Regression.

Bike Price Prediction – Used Machine Learning to estimate resale prices of bikes from dataset features.

Insurance Cost Prediction – Analyzed health and financial data to predict insurance charges using regression models.

Credit Score Prediction – Classified users' creditworthiness using data-driven ML models.

BMI Calculator (Python) – A console-based project to calculate BMI and categorize fitness levels.

ATM Simulation System – Simulated ATM functionalities such as withdrawal, deposit, and balance check in Python.

Trainings & Certifications

- College Provided Technical Training (2024)
- Data Science, Artificial Intelligence & Machine Learning – Upflairs
- Energy Literacy Certificate
